Announcements

Tweet #LegalRuleML

The first meeting of the LegalRuleML TC will be held on 19 Jan by teleconference. A chair or two co-chairs will be elected at this meeting. You may join the LegalRuleML TC at any time, but in order to be a Voting Member at the first meeting, you must join the TC by 12 Jan. Contact join@oasis-open.org for more information.

Overview

The OASIS LegalRuleML TC defines a rule interchange language for the legal domain. The work enables modeling and reasoning that allows implementers to structure, evaluate, and compare legal arguments constructed using the rule representation tools provided.

For more information on LegalRuleML, see the TC Charter (https://www.oasis-open.org/committees/legalruleml/charter.php) .

Subcommittees

No subcommittees have been formed for this TC.

Technical Work Produced by the Committee

This Committee has not produced technical work yet.

Expository Work Produced by the Committee

There are no approved expository work products for this TC yet.

External Resources

Although not produced by the TC, the following resources provide insight into its work:

- RuleML: The Rule Markup Initiative (http://ruleml.org/1.0/)
- LegalRuleML Discussion on OASIS LinkedIn Group (http://linkd.in/OASIS-LegalRuleML)

Mailing Lists and Comments

legalruleml: the list used by TC members to conduct Committee work. TC membership (http://www.oasis-open.org/committees/join.php?wg_abbrev=legalruleml) is required to post. TC members (http://www.oasis-open.org/committees/membership.php?wg_abbrev=legalruleml) are automatically subscribed; the public may view archives (http://lists.oasis-open.org/archives/legalruleml/) .

legalruleml-comment: a public mail list for providing input to the OASIS LegalRuleML TC members. Send a comment (http://www.oasis-open.org/committees/comments/form.php?wg_abbrev=legalruleml) or view archives (http://lists.oasis-open.org/archives/legalruleml/) .

Additional Information

Providing Feedback: OASIS welcomes feedback (/committees/comments/index.php?wg_abbrev=legalruleml) on its technical activities from potential users, developers, and others to better assure the interoperability and quality of OASIS work.
